Address   190/4, Kongu Nagar, Lawyers Colony, Udumalai Road,
              Dharapuram - 638 657

Project :

- **Recommendation System of Learning Material for Dyslexic Children - Machine learning.**

    Developed a Content-based Recommendation using Python to suggest learning materials for the Children diagonised with Dyslexia, it includes few classification algorithm for additional Functionality.

    Technological Stack: Python, sklearn, Pandas, numpy.
    Git Link:

- **House rent predicting System - Machine Learning.**

    It involves few Regression Models to get house rent predicted based upon some parameters like built area, no of room etc.

    Technological Stack: Python, sklearn, Pandas, numpy.
    Git Link:

- **Kiwi Blog - MERN Development.**

    Fully functional responsive web site to create beautiful blogs and implemented some basic aunthentication process via signUp login functionality.

    Technological Stack: React, Node, Express, Mongodb.
    Git Link:

Academic :

- **B.E Computer Science Engineering - (2020 - 2024)**   **CGPA - 8.75**
  PSG College of Technology, Coimbatore - 641 004.

- **12th Grade** - **(2019 - 2020)**   **Percentage - 94.2**
  Sagar International, Perundurai - 638 052.

Position of Responsibility :

- **Radio Jockey at PSG Community Radio -** Head of an RJ Team   **(2022-2023)**

- **Part of Compering Team at (CSEA)**.   **(2021-2022)**

Skills :

Programming Language - Java.   **Web Development - Frontend:** React Js,HTML,CSS.
Machine Learning - Python, sklearn, Pandas, numpy.   **Backend:** Node js,Express MongoDB.
